

Greenergy Langley

Our Langley supply point provides competitively priced, reliable, local fuel supply to the Metro Vancouver area.

About us

As a global leader in petroleum product supply and Europe's largest manufacturer of waste-based biodiesel, our unique global supply chain and terminal network enables us to source and supply fuels from multiple sources, minimizing any dependence on specific refiners.

Superior supply reliability for our customers.

We will make every effort to provide you with the best combination of price and service and work to meet the specific needs of your operation.

Our Langley supply point is in partnership with Bulk Specialty Inc. and offers customers an intermodal, gasoline supply location.

Quality fuels offered

Our Langley supply location offers an efficient truck loading alternative for the following quality fuels:

- Ethanol bended gasolines (E10)
- Diesel (ULSD) clear and dyed
- Renewable diesel

TOP TIER™ detergent gasoline approved E10 is also available.

All Greenergy fuels go through effective quality processes and procedures.

Our fuel is tested by independent third-party labs to confirm its quality standards.

Safety

Safety underpins everything we do. We create safe working environments by continually working to identify, assess and mitigate the risks associated with our operations.

We encourage and empower every individual working across the business to observe and report hazards, near misses or unwanted events, however small, without fear of blame.

Conveniently located, the terminal is East of the Fraser River, and minutes away from the Trans-Canada Highway
